

APPROVED AGENCY PROGRAM CLASSES

EXHIBIT 5-4

Program class is the FFIS term for the high level appropriated funding sources Congress gives APHIS. The five major program classes; Pest and Disease Exclusion, Plant and Animal Monitoring, Pest and Disease Management, Animal Care, and Scientific and Technical Services, relate directly to the five long term strategic goals set for APHIS. The General and Administrative class will periodically be distributed to the major program classes.

The program class is used to simplify reporting at this high level. For those funds not associated with appropriated and emergency funding, the program class is not assigned. Reimbursable and trust funds do not have program classes.
